Measurements

How to Set

Lift up the door lock at the top of the trap.

Press the door lock frame in, pulling the door up to open the trap.

To keep open, rotate the trigger rod, and the door will lock into place.

You may set 1 or 2 of the doors on the trap depending on placement location.

How to Bait

- 1 Select a bait that's attractive to the animal.

- 2 Wear gloves to avoid transferring your scent to the bait.

- 3 Carefully position the bait 2-3 in. from the back of the trap. *Do not place bait on trigger plate.*

- 4 Place bait in ways that force animals to interact with it.

- 5 Create a trail of bait from the outside of the trap.

- 6 Introduce trap by baiting and propping the door open to help animals get comfortable.

Suggested Baits

For Cats

Cat Food, Sardines
