

New from the world's most trusted manufacturer of drywall lifts, the **Panellift® Hangpro™ Model 150**

Panellift® Hangpro™ Model 150

There is nothing on the market like the Model 150 lift, **designed specifically for hanging drywall on vertical walls**. The lightweight steel construction makes transporting and storage of the tool easy, and the built in brake winch securely holds the load in place for user safety.

This is **the perfect tool** for contractors and home renovation weekend warriors.
