

# Best Used For:

**Squirrels**

**Chipmunks**

**Rats**

**Weasels**

**and similar-sized nuisance animals**

# Measurements

# How to Set Trap

1

Turn out door locks.  
Press down on offset  
loop to open doors.

2

Position flat end of the  
looped trigger rod under  
flat end of bait pan trigger.

3

Turn door locks so they  
rest on doors.

# How to Bait

- 1** Select a bait that's attractive to the animal.

- 2** Wear gloves to avoid transferring your scent to the bait.

- 3** Carefully position the bait 2-3 in from the back of the trap. *Do not place bait on trigger plate.*

- 4** Place bait in ways that force animals to interact with it.

- 5** Create a trail of bait from the outside of the trap.

- 6** Introduce trap by baiting and propping the door open to help animals get comfortable.
